Subject: RE: Email Authorization

Dear Mr... Moscovitch,

Thank you for your prompt reply. The reviewing manager has reviewed the application and has determined that a supplemental Oath/Declaration should be filed in this reissue application. The following is the excerpt from the reviewer's communication: "The declaration does not specify an error in the patent to support the broadening made in the reissue. Applicant should specifically point to something in the patent claims which rendered the claim too narrow. See MPEP 1414 (II). Specifying a word or phrase may be sufficient to meet this requirement".

In your reply of 04/02/09 is stated (see p.11, third paragraph): "In particular, in the original patent, the only independent claim has the limitation of at least one coupling assembly included in the third support arm [...] it is not necessary for a system to have a coupling assembly on a third support arm [...] This is one error that is being corrected in the instant reissue application" .

Please include in your supplemental Oath / Declaration the aforementioned "error" statement pertained to broadening. Do not include any discussion regarding the "infringement" (as in the aforementioned reply), but only the clear and precise "error" statement and other standard clauses (see MPEP 1414).

Please email me the draft of the new Oath /Declaration so I can review it before filing. I would appreciate your prompt reply.

Thanking you in advance.
